An Overview | A.A Nass and Sons

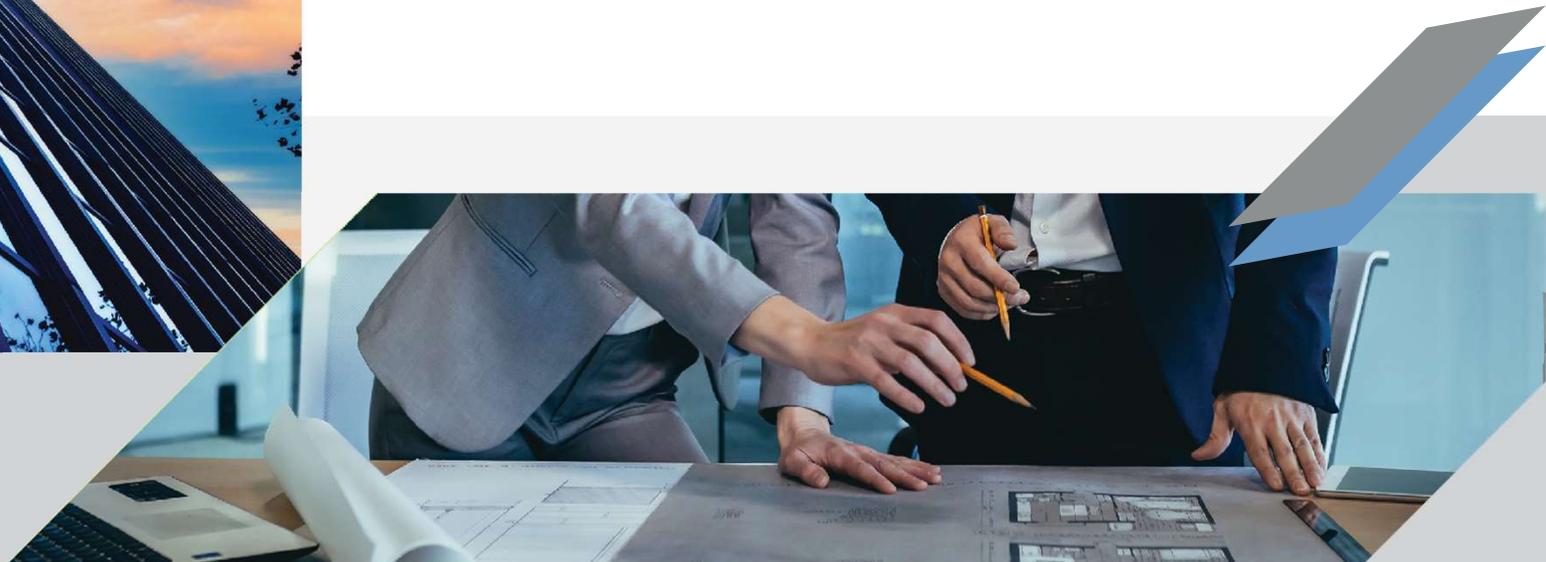

A.A. Nass & Sons was founded in 1963 by the late Mr. Abdulla Ahmed Nass, a visionary and pioneer in the construction sector. Since then, A.A. Nass & Sons has expanded effectively to become a multi-faceted industrial giant with leading companies in the following fields: engineering, construction, manufacturing, marine, trading, marketing and related services.

Headquartered in the Kingdom of Bahrain, A.A. Nass & Sons has proven track record of successfully executing complex and extensive international projects. Providing cutting-edge, complete solutions in Bahrain, Qatar, Saudi Arabia, Kuwait, the United Arab Emirates, and Oman.

A.A. Nass & Sons has a committed management team with a strategic focus in addition to thousands of experienced and devoted employees.

The first family-owned business in the Kingdom of Bahrain to go public, the parent company of several different business lines.

A.A. Nass & Sons has established itself as a leader in its industry by bringing all of its business divisions under one roof and providing the entire range of specialised services.

Nass aspires to become a globally recognised company by overcoming boundaries. Safety, quality, and ethics are the three guiding concepts that we have upheld throughout our history and serve as the cornerstone of our business practices. A variety of group-wide policies in important areas like sustainability, health, safety, and data protection serve as the foundation for our code of conduct. They outline our interactions with important parties, such as shareholders, employees, and clients.

About Us | Nass Corporation

Nass Corporation B.S.C. (Nass) is a Bahraini Public Joint Stock Company established and listed on the Bahrain Bourse in 2005, licensed by the Ministry of Commerce and Industry, and regulated by the Central Bank of Bahrain.

The roots of Nass Corporation are anchored as far back as 1963, when Abdulla Ahmed Nass Contracting Company was formed. The creation of Nass Corporation is a result of the consolidation of A.A Nass and Sons' core construction and industrial related businesses under one roof. Strategic investors were invited to invest in the company through a private placement, which was followed by an IPO listing on the Bahrain Bourse.

Since its inception, the Corporation has emerged as a leading, and integrated Construction Solutions Provider, with operations in the Kingdom of Bahrain, Kingdom of Saudi Arabia, and the United Arab Emirates.

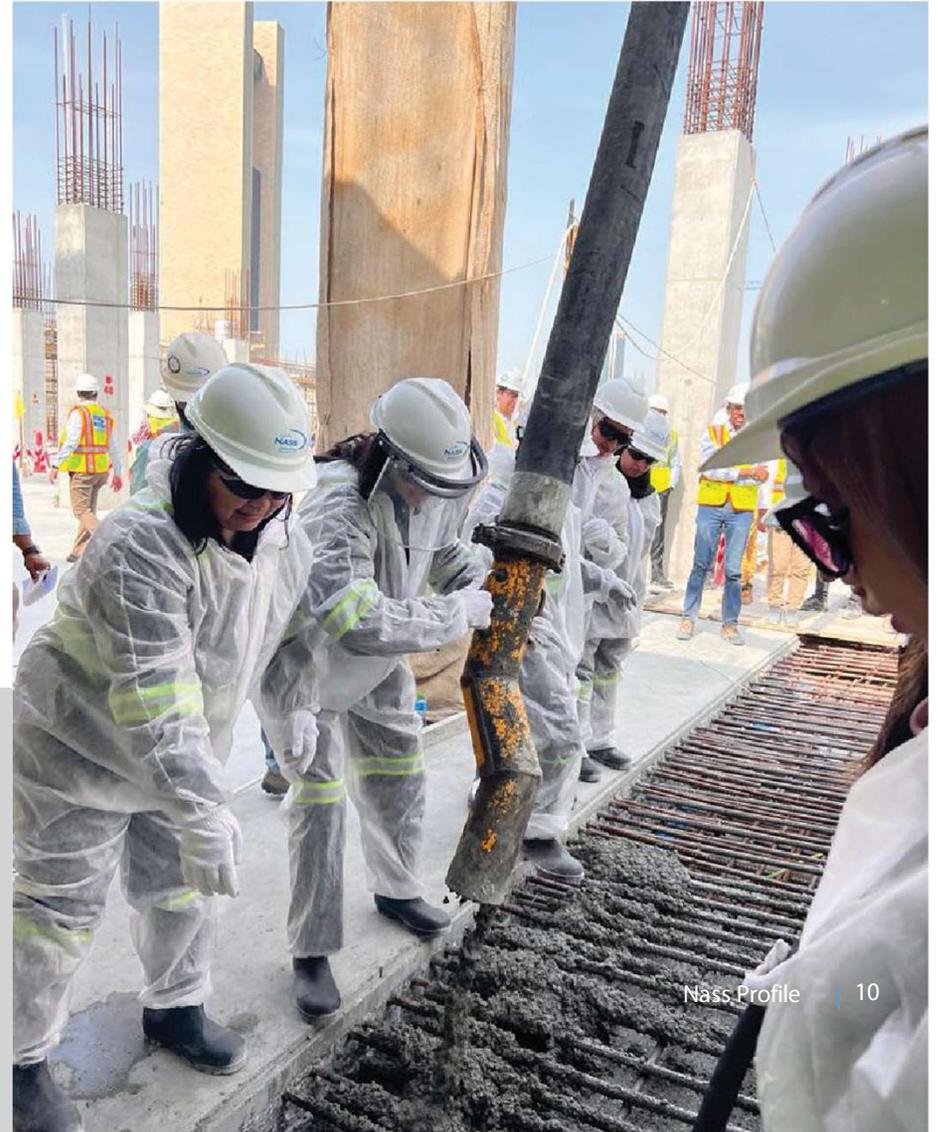

Comprised of six divisions and five subsidiaries Nass Corporation has the vision to become a major regional player providing innovative, turnkey construction and industrial solutions.

Complete Construction Solutions

We take pride in our ability to deliver intelligent and sustainable solutions, meticulously crafted from business case to post-construction care. The corporation aims to provide clients with a convenient and trusted source for a myriad of construction disciplines. Our firm commitment to world-class standards, timely delivery, top-notch HSSE and Quality, and nurturing customer relationships sets us apart as the Contractor of Choice.

From concept to completion and beyond, Nass Corporation provides clients with a convenient and trusted source for a variety of construction disciplines.

Our Values | Nass Corporation

“Unleashing Bahrain’s potential, Nass Corporation stands at the vanguard of achievement, driving progress, and shaping a nation’s success story.”

We are the change

MISSION

At Nass Corporation we are committed to adding value to our stakeholders. We nurture the personal and professional growth of our employees through training and development, and build solid, mutually beneficial relationships with our local, regional, and international partners and suppliers.

We endeavour to continually exceed our client’s expectations through the consistent delivery of product and service excellence as we strive to support the growth and development of the local and regional industries. Corporate social responsibility will always remain at the forefront of what we do, underscoring our genuine commitment to the well-being and prosperity of the communities in which we operate.

VISION

It is the vision of Nass Corporation to be a major regional player in the industry and to provide innovative, turnkey construction and industrial solutions.

Ethics & Sustainability | Embracing a Legacy of Integrity

Building a culture of trust: A.A Nass and Sons' code of conduct for ethical excellence.

Ethics

With a rich family heritage spanning 60 years, Nass prioritises ethics above all. Compliance with the law is just the starting point—we strive for excellence in every business transaction. At Nass, we conduct ourselves with utmost integrity, ensuring fairness and impartiality without compromise.

We firmly believe that our individual integrity drives the credibility of our company. Each day, our colleagues uphold the highest ethical standards, diligently complying with all relevant laws and regulations. Our relentless dedication to ethical conduct defines us and sets us apart.

Sustainability

A.A Nass and Sons leads the way towards a sustainable future, where environmental consciousness and business excellence go hand in hand. We prioritize sustainable production processes, innovative product design, and services that benefit the environment while driving our success. Committed to sustainable development, we aim to create competitive and dynamic economies.

Founder of A.A. Nass & Sons and Nass Corporation | A Pioneer and a Visionary

Late Mr. Abdulla Ahmed Nass
Founder

Established in 1963, A.A. Nass & Sons is a diversified and dynamic industrial conglomerate and construction powerhouse. A.A. Nass & Sons encompasses 32 companies that are engaged primarily in contracting, manufacturing, marine services and related trading activities.

Ranked as one of the best of its kind, A.A. Nass & Sons has evolved and transformed over the last 50 years since the late Mr. Abdulla Ahmed Nass, a construction industry pioneer and visionary leader, established the Group as a small civil construction and trading company. Diversification has been key to the Group's sustainable success, and since the business started it has steadily expanded and diversified into a range of areas, with every division created in order to meet a real industry demand.

Today, A.A. Nass & Sons is an empire of best-in-class companies that employ a dedicated staff of thousands who, together with its steadfast management team, support the group as it adapts and innovates to meet the diverse and changing needs of the region's construction and industrial sectors.

In 2005 the Group underscored their commitment to positive change when it became the first family company in the kingdom to go public, and to be listed on the Bahrain Stock Exchange. The Group consolidated its core construction related businesses into Nass Corporation BSC, bringing a synergistic range of services conveniently under one roof, and creating a one-stop shop.

Nass Corporation solutions incorporate construction capabilities of Heavy civil and building, Mechanical contracting (EPC), Electrical contracting, Automation and instrumentation, Interior, Landscapes, and offshore activities.

Our manufacturing business offers prefabricated piping systems, general fabrication and ready-mixed and precast concrete products. The Group's service offerings encompass heavy lifting solutions, transport and logistics, scaffolding, waste management, non-destructive testing (NDT),

equipment rental and other services that cater to all sectors. The Company's Marine line manufactures vessels and barges and provides professional marine transport services. Our Trading and Marketing divisions deals in a wide range of construction chemicals and equipment and represent major international brands such as BASF, CASE and SCHWING.

With local know-how and international expertise, A.A. Nass & Sons has emerged as a foremost player in the region and a preferred partner of choice to a growing network of suppliers, international EPC contractors, and clients.

Today, the next generation of the Nass family continues to explore expansion opportunities geographically and in product and service offerings in order to maximise stakeholder value and protect the future prosperity of A.A. Nass & Sons.

Chairman's Message | An Inspiration

Mr. Sameer Abdulla Nass
Chairman
A.A. Nass & Sons and Nass Corporation

“Adherence to our corporate values and a commitment to continuous innovation is key to our future prosperity”

Reflecting upon the extraordinary journey of A.A. Nass & Sons, we are humbled by the path we have treaded, guided by unswerving principles and an unyielding spirit of innovation. In the symphony of Bahrain’s accomplishments, the emergence and existence of A.A. Nass & Sons has played a pivotal role. True success extends beyond financial achievements, it lies in the transformative impact we have on stakeholders and communities. With audacious thinking and an unquenchable thirst for innovation, we embrace a culture of excellence. In the vast horizon of opportunities that lie ahead, we, Bahrain’s leading company, will seize them, drawing on our expertise, experience, and strategic partnerships.

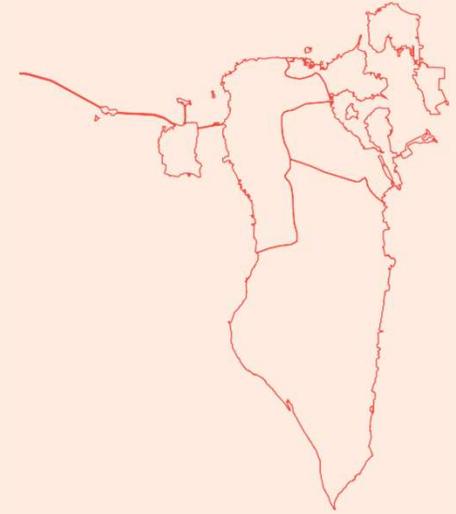

In the words of Ralph Waldo Emerson, ‘Do not go where the path may lead, go instead where there is no path and leave a trail.’ Let A.A. Nass & Sons be the trailblazer, shaping a future that leaves an indelible mark on minds and hearts. Together, united by purpose and fuelled by firm commitment, we embark on this remarkable journey, illuminating the way for a brighter tomorrow.

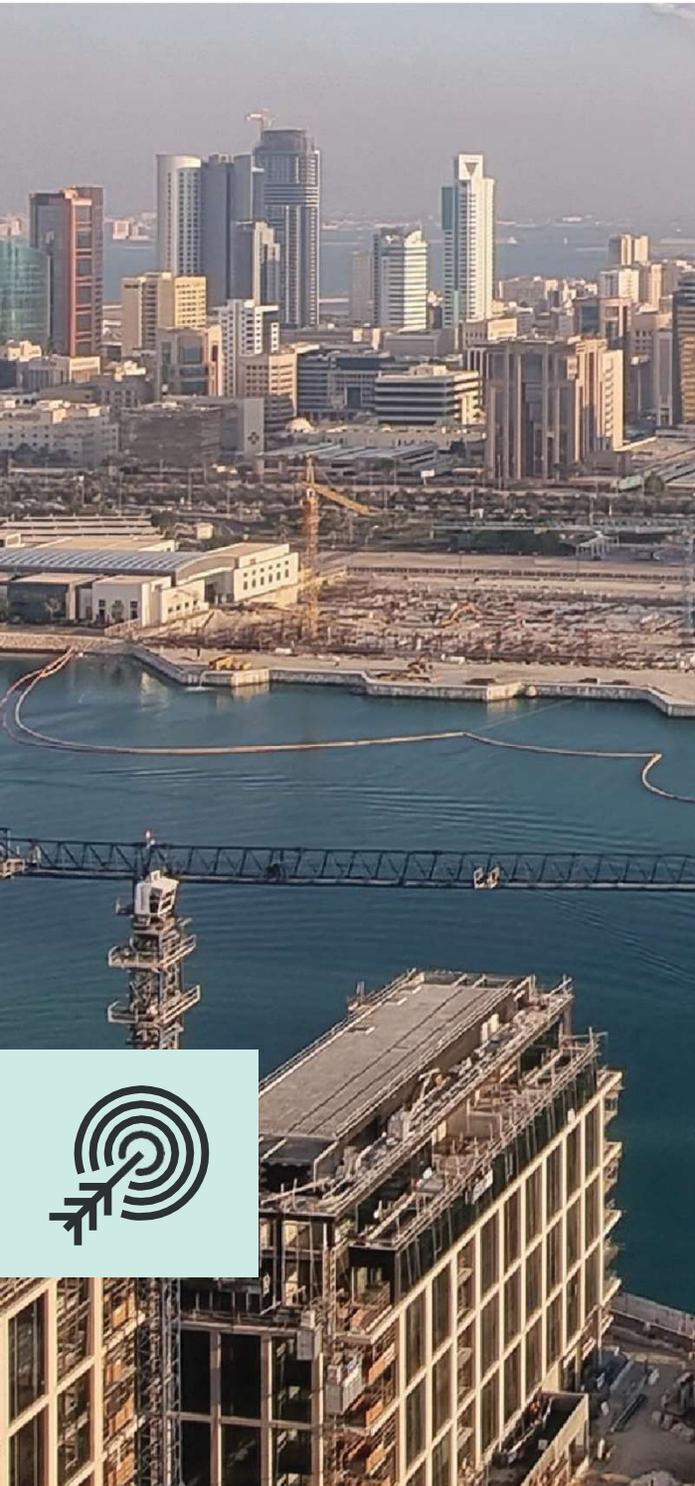

2005 onwards

As a prominent Bahraini company, Nass Corporation has made significant contributions to the country's economy and completed numerous noteworthy projects. Their diverse range of projects across various sectors has played a crucial role in advancing Bahrain's infrastructure and enhancing its global competitiveness. Nass plays a key role in shaping Bahrain's future as a dynamic and sustainable nation. It has a positive impact on the country's economy and tourism sector. Notable projects include Avenues West Phase 2B, as well as the development of world-class hotels like Jumeirah Gulf of Bahrain Resort and Spa and Hilton Garden Inn.

"Building the Future: A Trailblazer in National Infrastructure"

Continuing the journey of success

Nass Corporation Spearheads Bahrain's

Transformative Infrastructure and Development Projects

Nass Corporation, a leading construction and engineering firm in Bahrain, has undertaken numerous high-profile projects in the country since 2005. Among their ongoing developments are the Hawar Hotel project, the Four Seasons Bridge, the expansive Bahrain Marina, the continued expansion of The Avenues shopping mall, and the Busaiteen Link Package 3 infrastructure project. Nass has also completed several landmark projects during this period, including further expansions of The Avenues, the construction of the massive Dragon City complex, the Hilton Garden Inn Hotel, power and infrastructure upgrades for Aluminium Bahrain (Alba) and the Nuwaidrat Interchange and Flyover, the Arcapita headquarters building, improvements to the US and British naval bases, a new hangar facility for the Isa Air Base, and the Royal Terminal at Bahrain International Airport. Additionally, Nass has played a key role in constructing major industrial facilities like the Bahrain Petroleum Company (BAPCO) expansion and the Bahrain Assembly plant. Through these wide-ranging projects, Nass has made significant contributions to Bahrain's economic and infrastructure development over the past 15+ years.

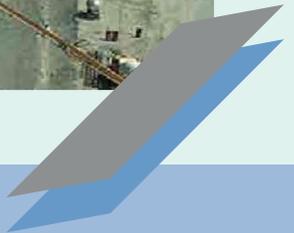

1981 - 2004

A.A Nass and Sons has been at the forefront of delivering remarkable and monumental projects that have redefined the landscape of Bahrain and beyond. A.A Nass and Sons has established itself as a leading name in the industry. Through a rich tapestry of accomplishments, the group has consistently demonstrated its ability to execute large-scale and awe-inspiring ventures, leaving an indelible mark on the architectural and infrastructural landscape of the region.

"Pioneering the Path: Delivering Unprecedented National Infrastructure Achievements"

Setting new standards in achievement

A.A Nass and Sons have achieved remarkable milestones, including the iconic Nass Tower adorned with exquisite Michael Angelo marble cladding. They have also established Nass Foods as a dominant force in the industry. Another testament to their dedication to innovation is the establishment of Delmon Precast. In addition to their ventures in Bahrain, A.A Nass and Sons have undertaken significant projects in Qatar and Kuwait, including the pivotal Hidd Power Station. Nass Ice and Water Plant, Nass Scafform Contracting, and Nass Asphalt demonstrate their commitment to advanced technologies and excellence, including the Hidd Infrastructure Project.

Nass Corporation's Transformative Legacy in Bahrain

Over the past four decades, Nass Corporation has established itself as a leading construction and engineering firm in Bahrain, delivering an impressive portfolio of landmark projects. Even prior to 2005, the company had already completed major developments such as the Prince Khalifa Bin Salman Port, Alba's potline 2 expansion, the Hidd Power Station, a cement plant in Qatar, and a steel mill in Kuwait.

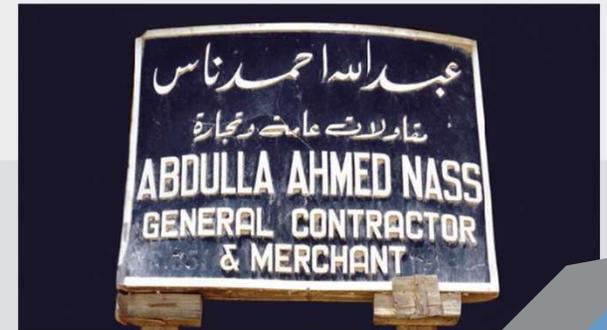

1963 - 1980

In 1963, Nass Contracting laid its foundation, marking the initial steps of what would later become A.A. Nass & Sons. Led by a 27-year-old Abdulla Ahmed Nass, the journey began with notable projects such as the Royal Air Force Project and the construction of Aysha Girls School in Manama. From these humble beginnings, A.A Nass and Sons emerged as a force to be reckoned with in the realm of urban development and construction.

"Unleashing Potential: Propelling National Infrastructure Today"

Expanding horizons, redefining industries

Nass Commercial ventured into trading industrial products, while Nass Mechanical Contracting became the first mechanical division. Nass Ready Mix revolutionized the industry, setting new standards with the first-ever ready-mix concrete company. Nass Plumbing and Nass Sand Processing Plant further solidified the group's presence and expertise.

Notable milestones include the construction of the Gulf Hotel, Bahrain's first five star hotel, and the building of the first Muharraq bridge. Nass Electrical also established itself as a reliable name in electrical and instrumentation contracting.

The Early Foundations of Nass Corporation's Legacy in Bahrain

Nass Corporation's history in Bahrain dates back to 1963, when the company first began undertaking significant infrastructure and development projects across the country. In these early decades, Nass played a pivotal role in constructing vital facilities like the Royal Air Force project, the Aysha Girls School in Manama, and the initial phase of the Aluminium Bahrain (Alba) plant. The company also delivered landmark hospitality projects, building both the iconic Gulf Hotel and the Le Meridien Hotel. Nass' portfolio further expanded to include the construction of the First Muharraq Bridge, as well as the first major housing complex in Isa Town. Additionally, the company undertook critical work to rebuild and repair the BAPCO oil refinery during this period. Through these transformative projects delivered over nearly two decades, Nass Corporation laid the groundwork for its ascent to become a leading construction and engineering firm in Bahrain.

*Groundbreaking Brilliance Fuelling
Bahrain's Advancement*

Nass Corporation

CEO's Message | Driving Goals

Nass Corporation

“We are building prosperous structures and reaching remarkable milestones.”

Nass Corporation stands at the forefront of driving Bahrain’s 2030 Vision for a sustainable, innovative, and economically diverse future. With significant achievements in the past five years, including major infrastructure projects and strides in sustainability, the company is reshaping Bahrain’s industrial capabilities and workforce skillset, ensuring the nation’s competitive edge on the global stage.

Nass Corporation differentiates itself through a strong commitment to meeting customer needs and providing innovative solutions. The company’s dedication to diversity and inclusion is reflected in its equitable policies and vibrant, multicultural workplace. Proactively addressing risks through strategic

planning and advanced risk management, Nass Corporation remains adaptable and prepared for industry shifts, embracing digital and sustainable practices to set new standards and explore new markets.

Guided by the visionary leadership of its Chairman, Mr. Sameer Nass, and the profound experience of its Board members, Nass Corporation is dedicated to maintaining its focus on ethical practices, sustainability, and making a significant impact on society. The company’s goals transcend traditional business achievements and profitability, as it aspires to be a catalyst for a better, more prosperous Bahrain, contributing to the well-being of its society and the global community.

Complete Construction Solutions

Nass Corporation

Construction | Nass Industrial Services / Nass Mechanical Contracting

Bahrain

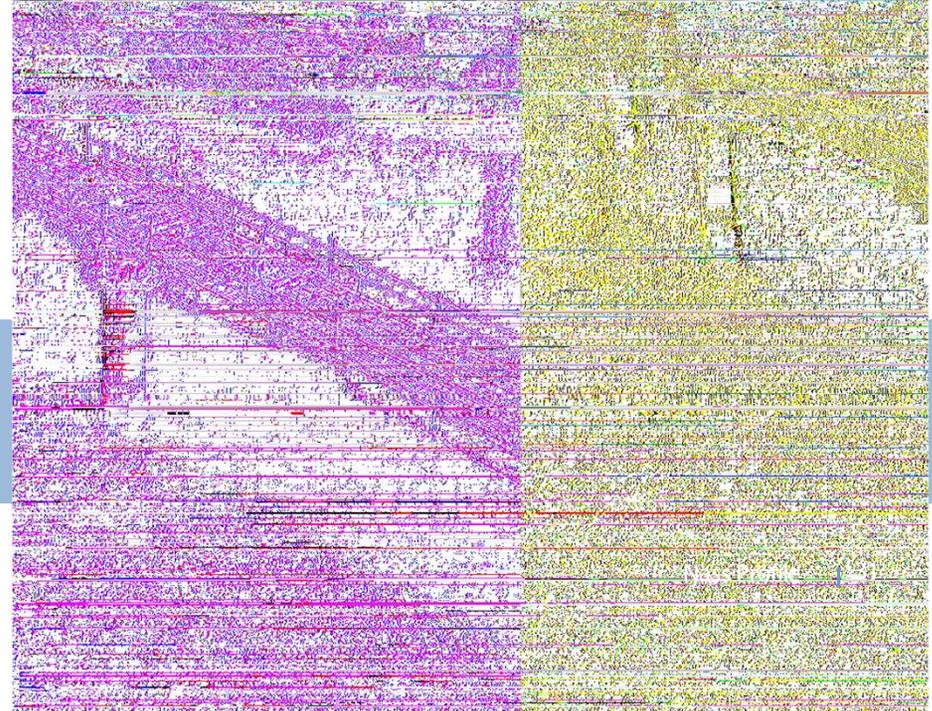

Nass Industrial Services (also known as Nass Mechanical Contracting Co. W.L.L. commenced operations in the year 1972 and is progressively emerging to become one of the major Mechanical, and Engineering and Manufacturer Contractor in the region.

The Company is engaged in Shutdown and Maintenance Projects, EPC of Packaged Unit, General Plant Construction, Heavy Engineering and Process Equipment Manufacturing, as well as, Refractory and Insulation, and Industrial Painting Projects in the Kingdom of Bahrain, as well as the GCC countries.

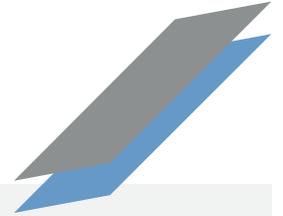

Nass Industrial Services has an immaculate reputation for delivering on time and for adhering to the best industry practices in terms of technicalities, quality, and customer service. The Company has a proven track record of excellence in construction quality, health and safety, and performance in all facets of mechanical construction and heavy engineering products for a wide variety of industries and clientele.

Construction | Nass Electrical (Electromechanical Works)

Bahrain

Launched in 1981 as a partnership with Balfour Kilpatrick International, Nass Electrical is engaged in a broad spectrum of electrical, plumbing, and mechanical contracting tasks. The firm provides a full suite of services ranging from design assistance and procurement to the execution and commissioning of extensive commercial and industrial MEP (Mechanical, Electrical, and Plumbing) projects.

Certified as a Grade 1 Contractor by the Electricity Distribution Directorate of the Kingdom of Bahrain, Nass Electrical stands out as a premier electrical contractor in Bahrain, known for its specialization in high-voltage (HV) and low-voltage (LV) cable laying, distribution, and jointing, alongside a robust proficiency in all electrical works related to the building sector, including electrical transmission and distribution.

The company prides itself on consistently completing high-quality projects within budget and timelines, catering to an expanding clientele in both local and regional markets. This achievement is supported by a dedicated team of highly qualified and certified professionals, who bring a wealth of experience and expertise in various sectors, particularly emphasizing energy and construction.

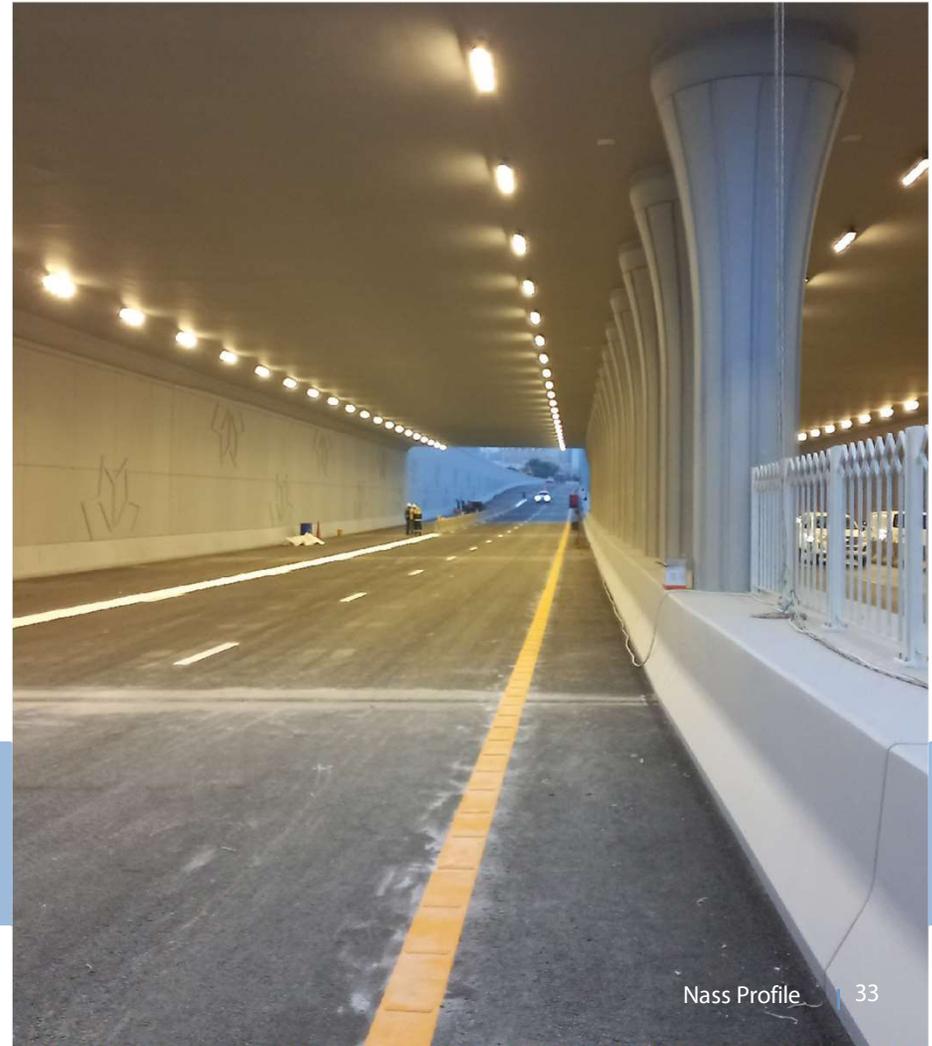

Nass Electrical strives to secure its position as a leader in the MEP industry, driven by the unwavering dedication, effort of its management team, and the integrity, collaboration, and innovation of its staff.

Nass Electrical have been awarded with ISO 9001:2015, ISO 14001:2018 and ISO 45001:2018.

Pioneers of Electrical Solutions

Construction | Nass Landscapes

Bahrain

Landscaping, blending art and science, is dedicated to the enhancement of outdoor areas, gardens, and parks. In Bahrain, it has become a crucial component of urban development, leading to an enhanced demand for such services over time. Nass Landscapes, established in 1996, is a leader in providing high-quality services in landscape construction, maintenance, and horticulture. Our landscaping team not only improves the aesthetic appeal of outdoor spaces but also plays a role in promoting environmental sustainability.

“Making relationships with major commercial and industrial sites”

Our team at Nass Landscapes consists of highly skilled professionals with expertise in landscaping, irrigation, horticulture and design. Utilising cutting-edge technology and equipment, we develop innovative, sustainable designs that align with the natural surroundings. Owing to our exceptional services and extensive experience Nass Landscapes has earned a reputation as one of Bahrain’s top landscaping companies. We are favored by clients for offering complete and integrated solutions in both the construction and maintenance of soft and hard landscaping layers.

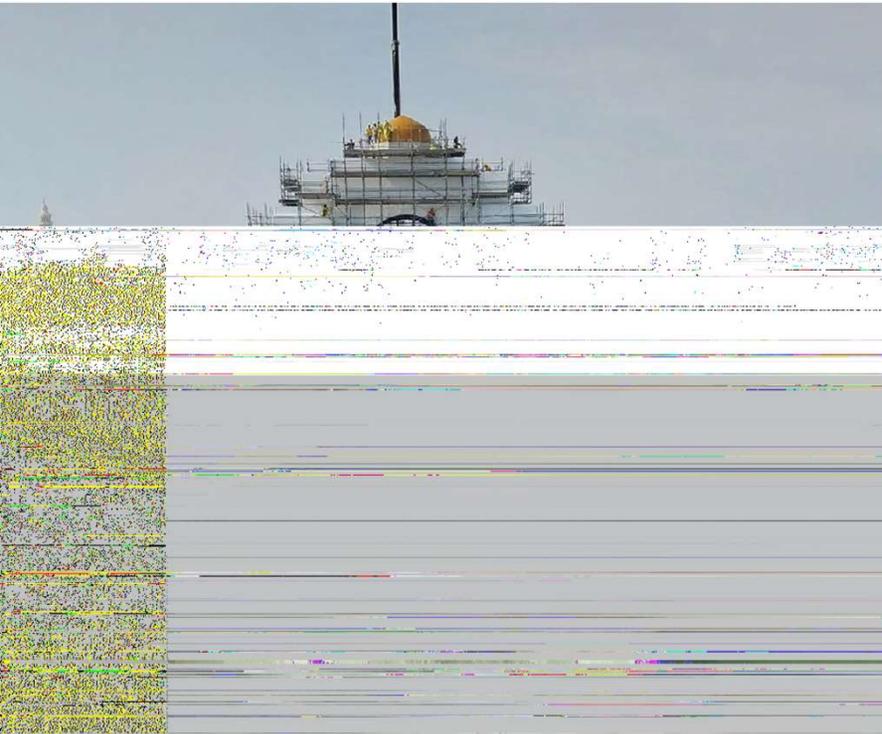

Experts in landscape construction, maintenance and horticulture

Construction | Nass Asphalt

Bahrain

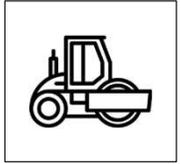

Starting in 2001, Nass Asphalt has established reputation in the Road Construction industry for competitiveness, quality and innovation. The Division participates in all levels of Project from car parks, tennis courts and residential roads, to major highways, airfields and industrial Infrastructures.

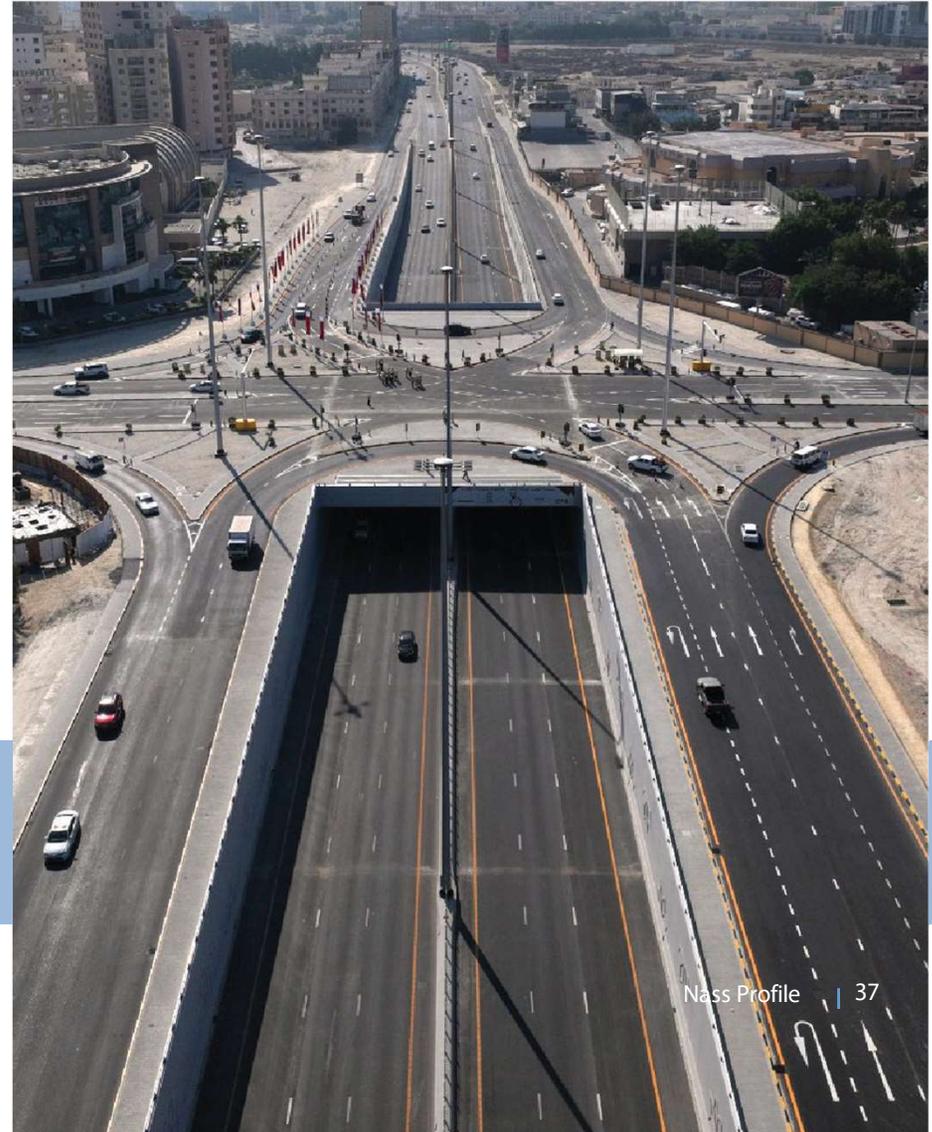

The company has developed a roads related civil business, which concentrates on the placing of sub-bases, kerbs, gulleys, manholes and drainage works and offers a wide spectrum of services varying from supply of specialized polymer and coloured asphalts to large boulders for rock protection works.

Aligned with its mission to deliver innovative solutions, Nass Asphalt invests heavily in research and development. Our highly trained laboratory personnel conduct various studies in the Company's custom designed laboratory in order to identify and solve multiple road-work related challenges while our production divisions use the latest Asphalt technology at their production units located in Hidd and Hafeera.

Today, Nass Asphalt has developed a multi-faceted capability for road construction and its allied businesses with the supply of 300,000 tonnes of asphalt and 1,500,000 tonnes of crushed aggregates into the market per annum.

The Professionals Who Care

Manufacturing | Delmon Ready Mixed Concrete & Products

Bahrain

Delmon Readymix is Bahrain's leading Ready Mixed Concrete Company, established in 1973. Delmon Readymix was originally established by Abdulla Ahmed Nass as Bahrain's first producer of concrete. Since then the Company has developed a reputation for the highest standard of product quality, professionalism and superior service as a key player in the construction of Bahrain's modern skyline.

Operating from sites at Salmabad, Hidd and North Alba the total achievable output of the Company's 9 concrete plants is 500 cubic metre per hour of concrete per hour. With a fleet of 60 truck mixers and 20 concrete pumps, the company has a capacity to supply in excess of 50,000 cubic metres of concrete per month, thus ensuring an adequate supply of concrete for all customer requirements.

In 2019, the company became the first concrete manufacturer in the Gulf to achieve ISO 17025 certification for their concrete testing laboratory, demonstrating the company's commitment to technical competence and total quality control.

Bahrain's first producer of Readymixed Concrete

Manufacturing | Delmon Precast

Bahrain

Since 1985 Delmon Precast has built a special niche for itself in the Bahrain precast market and become a major manufacturer of high quality custom made products for civil engineering and building applications. The business has developed by identifying the needs of our customers and offering practical and cost effective precast concrete solutions.

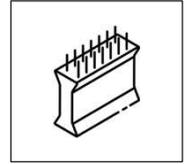

Our team of more than 300 skilled employees has embraced a commitment to Health & Safety, Quality and Innovation. We are dedicated to ensuring that we meet and exceed the expectations of all our customer.

The mission of the Company is to be the leading precast supplier of choice in Bahrain for quality, service and safety, through:

- Delivering consistent high quality products, professional technical advice and engineered solutions.
- Building long term relationships by partnering with customers, consulting engineers, architects and developers.
- Striving for zero incidents / accidents through caring for the health & safety of all our employees, customers and the public.

Delmon Precast is a full service Precaster offering a design, manufacture, deliver and install service of an extensive range of products from street furniture through to complete precast building solutions and everything in between including standard and bespoke precast concrete products.

Bahrain's foremost Precast Company

Trading | Nass Commercial

Bahrain

Nass Commercial commenced its operations in the early 1960s and had established its autonomy by 1986, extending its scope to incorporate the Mercantile division and a diverse range of trading activities.

Nass Commercial distinguishes itself through:

- Qualified and factory-trained sales and service staff across all its divisions.
- Strong connections with both suppliers and customers.
- Exceptional after-sales services and availability of genuine spare parts.
- Reliable ERP System support ensuring stock availability.
- State of the art warehouse facility and skilled logistics team.

Their product line-up includes:

- Heavy and light-duty trucks and buses
- Light and heavy construction machinery
- Compressors and material handling equipment
- Power generators, welding machinery, and consumables
- PPE, industrial, and construction consumables
- Automotive consumables, filters, oils, batteries, and tires
- After-sales services and spare parts machine rental

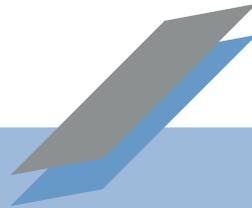

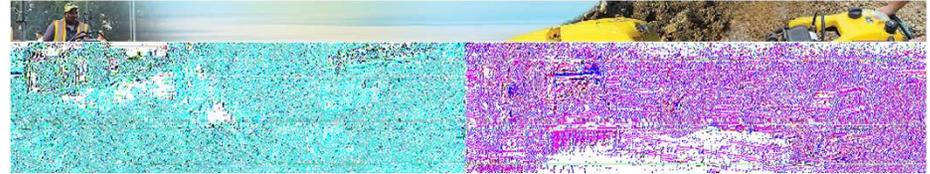

“We are building thriving edifices marked by significant achievements.”

Nass Commercial, a company that represents various international manufacturers, embodies a distinct ethos that permeates its operations. Serving as a comprehensive hub for sales, distribution, spare parts, and after-sales services, Nass Commercial has established partnerships with esteemed equipment and consumable producers across the globe.

Since its inception in the 1960s, the company’s division has been driven by a mission to provide turnkey industrial solutions that precisely cater to clients’ requirements, offering both high-quality products and exemplary service. As Nass Commercial looks towards the future, it remains unwavering in its commitment to pursuing excellence in all endeavors.

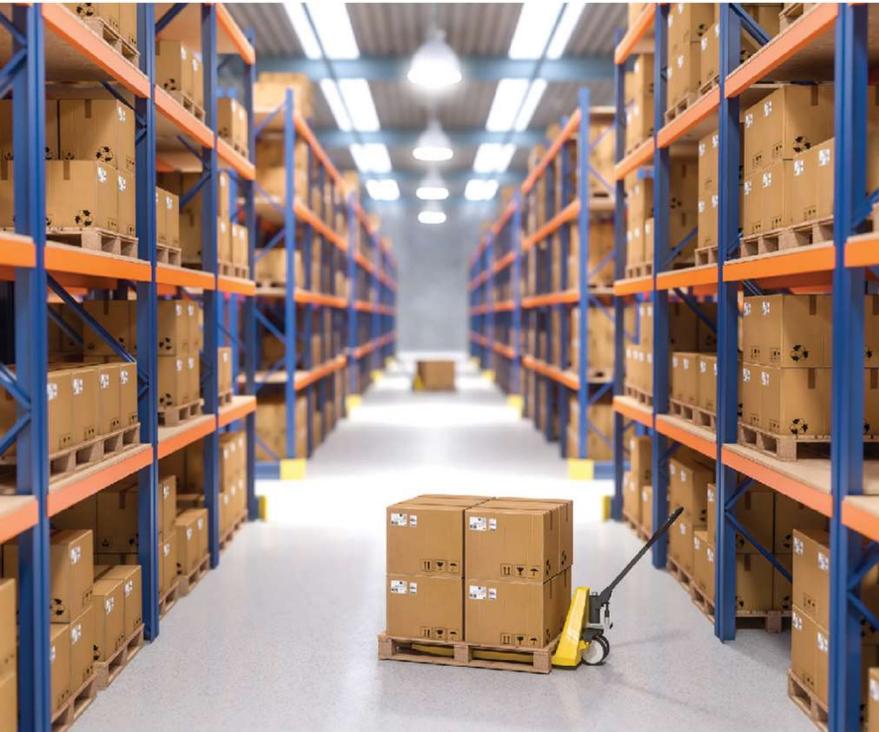

GEOSYNTHETICS
WE UNDERCOVER ALL YOUR PROJECTS

Food Safety & Quality

Nass Corporation

Services | **Nass Scafform**

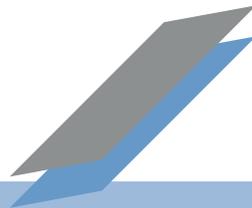

Bahrain

Nass Scafform formed in 1990 to meet the growing demand of The A.A Nass and Sons of companies for a professional and competitively priced scaffolding service. What began as a support division for the Group has, in a relatively short time, become a leading provider of scaffolding and formwork services to regional and international companies throughout the Gulf. The division specialises in the energy and petrochemical sectors.

Nass Scafform has a highly trained, qualified and motivated workforce of almost 1200 team members and an inventory of scaffolding materials in excess of US\$ 23 million. Having achieved a dominant market position in Bahrain, Nass Scafform has expanded its presence and gained market share in the Kingdom of Saudi Arabia as the Scaffolding Division of Abdulla Ahmed Nass and Partners, and in Abu Dhabi as Nass Scaffolding Services.

Quality, Safety and Service

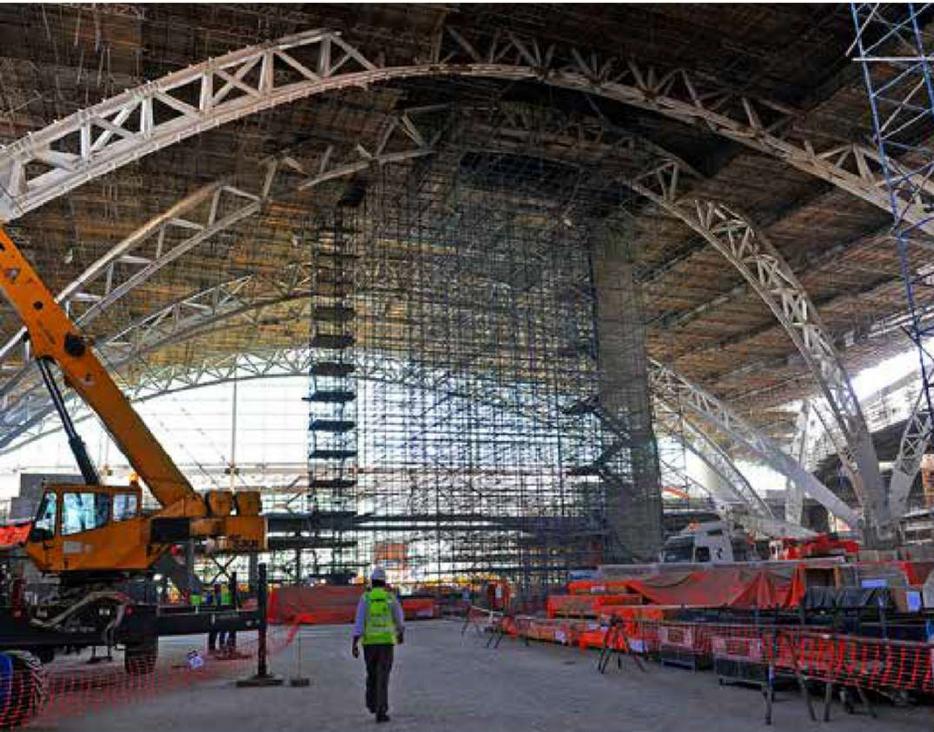

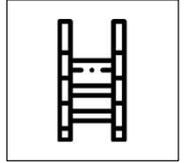

Nass Corporation

Services | Nass Scafform

Saudi Arabia and UAE

Nass Scafform is a division of Nass Corporation that conducts contract scaffolding works across 3 countries in the GCC (Bahrain, Saudi Arabia & UAE). Construction | **Abdulla Nass & Partners**

Saudi Arabia

Abdulla Nass & Partners Co., Ltd. (ANPC) was set up in 1995 as a major partner in Saudi Arabia's growing demand for executing construction projects that will provide the impetus for the Kingdom's all-round progress.

ANPC, with support from its parent company in Bahrain, has successfully globalized its operations and logistics. It offers specialized services in Steel Structures, Storage Tanks, Equipment Erection, Piping & Ducting, NDT, Welding Inspection, PMI, and Industrial Radiography. ANPC is a preferred provider of Hydraulic and Crawler Cranes (35 to 700 tons) and Scaffolding Services for Mechanical Construction Projects. Additionally, it offers support services like Welding Machines, Air Compressors, Forklifts, Generators, Boom Trucks, Trailers, Excavators, Backhoes, Tele-handlers, Skid Steer Machines, and Skilled Operators.

ANPC is an experienced construction contractor in the following fields:

- Fabrication and erection of industrial piping, steel structure and process and storage tank.
- Welding inspection, PMI and industrial radiography services.
- Supply heavy equipment for erection of plants.
- Supply experienced manpower in mechanical field.
- Supply all types of project support services including welding machines, air compressors, Forklift and Generators.
- Supply cutting and grinding discs, electrodes, welding consumables, safety gears.
- Supply of full solution of seating requirements by using grandstand advanced system in hire basis.

Projects have been undertaken for the Ministry of Defense, Al Zami Coatings, Saudi-German Company and power plants at Najran, Jizan and Shaybah as well as for leading international contractors such as Bechtel, ABB, General Electric, Westinghouse, Hitachi, Chiyoda and Snamprogetti. The Saudi Arabian facilities receives full backup and support of resources available within Nass The Group including Equipment and finance.

Services | Sarens Nass Middle East (SNME)

Bahrain

Sarens Nass Middle East W.L.L., established in 2003 as a joint venture between Bahrain's Nass Group and Belgium's Sarens NV, has become a powerhouse in providing heavy lift and shift solutions across various sectors including oil and gas, petrochemicals, and construction. Operating in six Middle Eastern countries, SNME boasts over 900 pieces of equipment and 1,400 experienced personnel. In Oman, the company operates under the name Nass Group LLC, leveraging the strong brand recognition of its Bahraini parent.

Services:

- Heavy Equipment Services: Crane rental, heavy lift engineering, and shutdown segments.
- Logistics Services: Material handling, warehousing, and transportation.
- Marine Services :Chartering and ship repair.
- Port Services: Stevedoring and port maintenance.
- Special Projects and Long-Term Contracts.

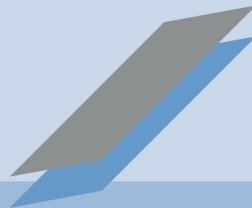

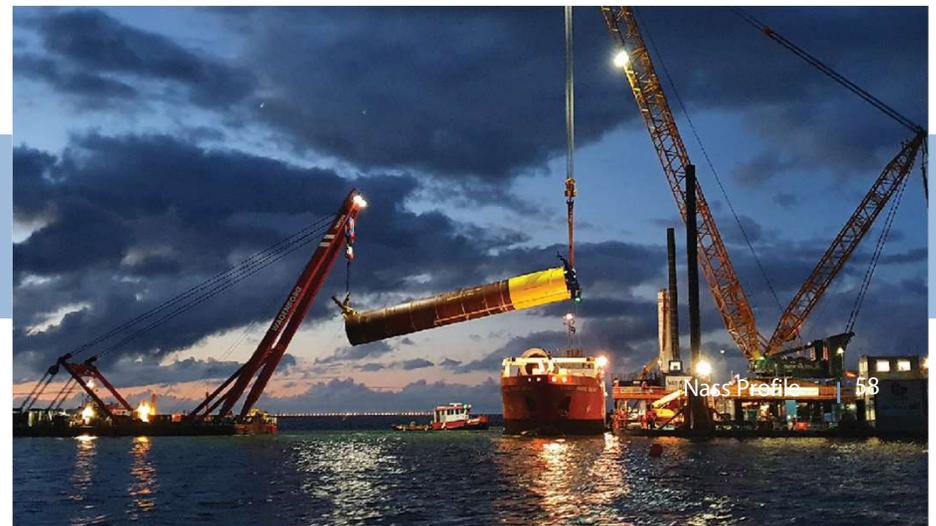

Values and Commitments:

- Health and Safety: A commitment to Safety, Health, Environment, and Quality (SHEQ), with a culture that emphasizes continuous improvement in these areas.
- Environmental Stewardship: Focus on preventing pollution, minimizing waste, and conserving resources, strengthened by ESG principles integrated in 2023.
- Quality Management: Dedication to customer satisfaction through ISO-certified practices and responsible business conduct, reinforced by ESG integration.

In 2024, SNME was honored with an International Safety Award from the British Safety Council for the third consecutive year, acknowledging its commitment to health, safety, and well-being management.

We Lift, Move, Transport your project.

Manufacturing | **Gulf Acid Industries**

Bahrain

Gulf Acid Industries was established in 1985 to meet the substantial sulphuric acid needs of the region. It is the only manufacturer of sulphuric acid in the Kingdom of Bahrain. The company encompasses a state-of-the-art production plant that provides the region with over 30 metric tons of sulphuric acid per day. The Plant manufactures the highest purity of sulphuric acid due to the Double Contact Double Absorption process (DCDA) which also ensures optimal efficiency during production.

Serving Bahrain's Commercial Needs

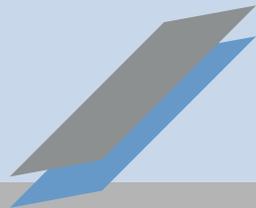

Manufacturing | **Shaw Nass**

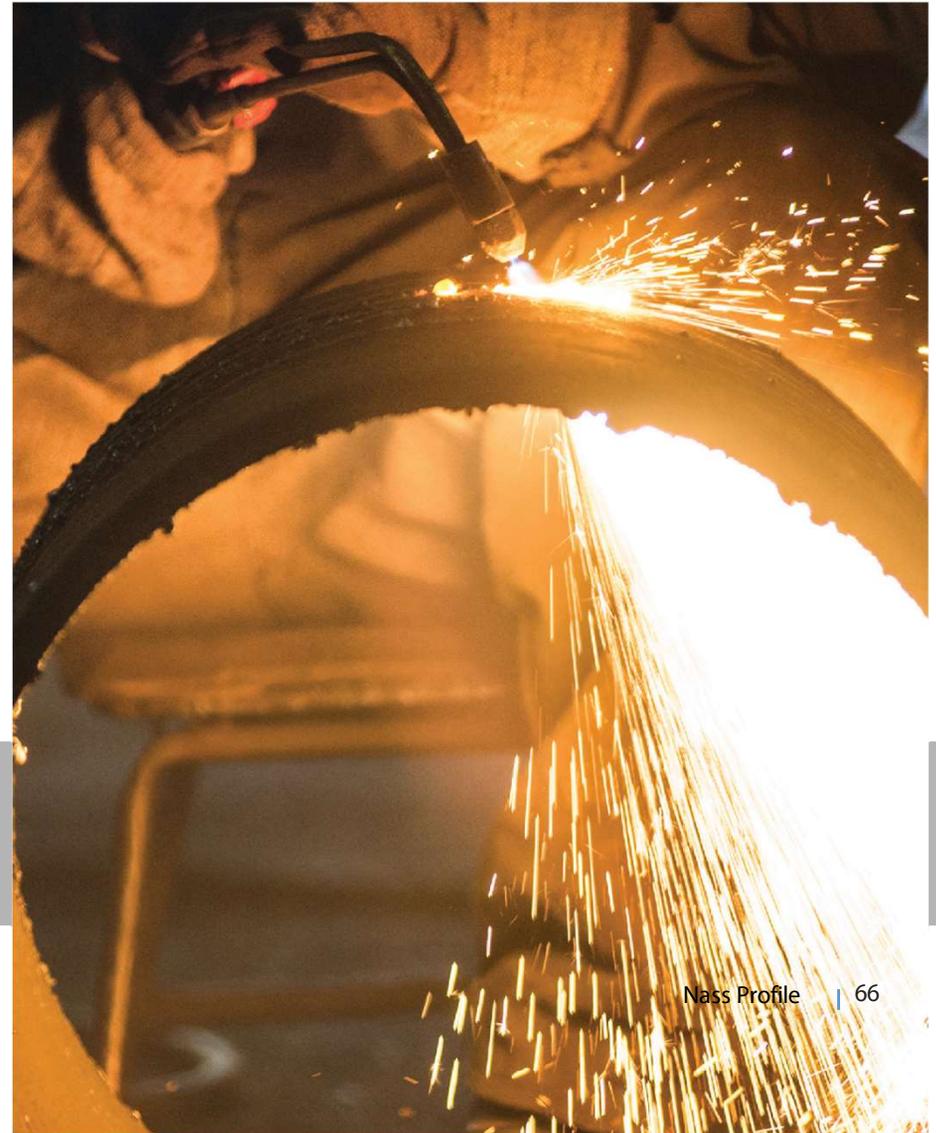

Bahrain

A joint venture with CB&I, USA; the company specialises in prefabricated piping systems for industrial projects throughout the Middle East. Manufacturers of high-integrity piping assemblies in carbon steel, stainless steel, and alloy materials for use in refineries, petrochemical, chemical and gas processing plants, offshore production facilities, desalination plants and power stations.

Spools are now exported throughout the Middle East and as far as Taiwan and Australia. A commitment to quality, in line with ISO standards, has enabled CB&I to achieve accreditation as a qualified facility for ASME pressure vessels and power piping.

Pioneering Piping System Technology

A.A Nass and Sons

Services and Ecological | **Gulf City Cleaning Company**

Bahrain

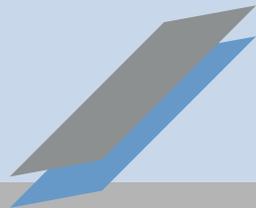

A pioneer service provider in the field of Cleaning and waste management services and a foremost provider of turnkey services to the private and public sectors in Bahrain. Formed in 2000, following the successful award of the Tender for the collection of Waste, Street Sweeping and Septic Tank Emptying, GCCC was one of the first full “turnkey” privatisations in Bahrain.

“A pioneer service provider in the field of cleaning and waste disposal services; solid and liquid waste”

Today GCCC have over a decade of proven success in delivering service excellence. The company's accomplishment in serving the cleaning and waste management needs of the Kingdom of Bahrain has positioned GCCC as a regional player with a number of lucrative Joint Ventures in other GCC countries envisioned for the near future.

Turnkey Cleaning and Waste Management

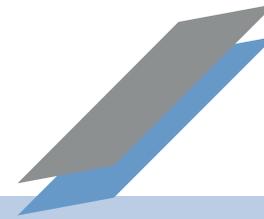

Services and Ecological | **Applied Science University**

Bahrain

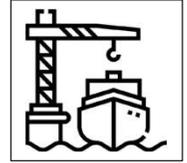

Applied Science University (ASU) is one of the pioneering private universities in the Kingdom of Bahrain. With a rich history of achievements dating back to its establishment in 2004, ASU has emerged as a concrete example of excellence in the region's educational landscape.

ASU dedication to quality has not gone unnoticed, as over the past two decades, the university has earned a distinguished reputation for its unwavering commitment to academic and scientific advancement. Through its relentless pursuit of excellence, ASU has significantly raised the bar for education to meet the evolving needs of the regional and international market, forming long-lasting partnerships with the prestigious London South Bank University (LSBU) and shaping the leaders of tomorrow by offering top-notch dual award engineering, law, and business programmes, making it the highest-ranked university in the Kingdom of Bahrain, the 20th in the Arab region, and the top 600 worldwide according to the QS Worlds University Rankings, and the only in the Kingdom of Bahrain to be Rated "5" Stars in the QS Rating System and achieved the global accreditation from the British Quality Assurance Agency for Higher Education (QAA).

Bridging Theory and Practice

Marine | Nass Marine Shipyard Company

Bahrain

Established in 2006, Nass Marine Shipyard Co. specializes in building multi-purpose barges. We have expanded our facility to accommodate small and medium-sized ships, barges, and yachts, enhancing our periodic repair and upgrade services for clients. Our staff ensures effective implementation of strategic objectives through leadership and project oversight. We employ industry-standard project management principles to efficiently manage resources, subcontractor support, and activity planning. Our management upholds sound business principles, prioritizes service excellence, and delivers quick turnaround solutions to meet customer expectations.

Current Activities

- New building of medium size barges
- Dry docking of tugs, barges and yachts and execution of repair and maintenance work as per work scope required.
- Afloat/Alongside maintenance repairs of vessels fitting into jetty capacity
- Ship recycling as per the Hong Kong convention
- Loading in/out of the equipment on the barge and vessels
- Machining and fabrication work.
- Off-site ship repair and replacement work.
- Ship agent / handling coordination of services and supplies.

Total Marine Solutions

Marine | **Dona Marine**

Bahrain

Dona Marine was formed in 2008 to provide marine shipping for the transport of limestone and gabbro crushed aggregates from regional quarry locations to the A.A Nass and Sons's dedicated marine aggregates jetty in Bahrain. The Company operates tug and barges with a carrying capacity of up to 26,000 tonnes. Annually the Company transports up to one million tonnes of bulk raw materials for use within ready mixed concrete, precast, asphalt and construction activities.

Dona Marine operates to the highest standards of marine health and safety. All offshore and onshore operations are carried out by an experienced team of marine professionals.

*Efficient Marine Shipping Solutions –
Importing quality aggregates*

Trading and Marketing | **Bahrain Building Chemicals**

Bahrain

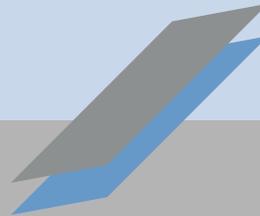

Bahrain Building Chemicals W.L.L. was established in 2006 by the A.A Nass and Sons as a major distributor of construction chemicals in the Kingdom of Bahrain. The Company has grown quickly to become one of the leading suppliers of construction chemicals in the Kingdom. The portfolio has grown since 2006, with new product ranges, including products from many leading manufacturers.

“The Company is proud to provide advanced chemical solutions for the building and construction industry”

The Company has a highly professional local team who provide support and technical service to contractors, clients, engineers and consultants. The Company maintains a significant stock inventory to ensure that materials are available as and when required.
